Introduction

Index Objective

The VettaFi New Zealand Government Index (formerly owned and administered by Credit Suisse) tracks the performance of NZD denominated bonds. The index provides a broad market benchmark

representing the total return performance and characteristics of treasury debt issued by the New Zealand Government.

Highlights

The bond selection process focuses on liquid, sovereign debt issued directly by the New Zealand Government to ensure a transparent and tradable constituent universe

VettaFi acquired the Credit Suisse Fixed Income indices in February 2025 and possesses complete live data since inception. Bond pricing and analytics are sourced from ICE Data Services (Intercontinental Exchange).

Rebalance/Reconstitution Dates: Index is rebalanced/reconstituted monthly on the last business date of the month.

Supporting Documents

This methodology is meant to be read in conjunction with supporting documents providing greater detail with respect to the policies, procedures and calculations described herein.

The list of the main supplemental documents for this methodology can be found in the Methodologies and Governance tabs on the [Index Resources](#) page as follows:

Index Change and Consultation Policy

Index Construction

Universe

The index universe consists of New Zealand Dollar denominated sovereign debt obligations issued directly by the Government of New Zealand.

Constituent Selection

The bond selection process consists of rule-based inclusion criteria, ensuring that only liquid, tradable government bonds are included. Bonds that do not have reliable, consistent vendor pricing are excluded from the index.

The following criteria apply:

- Bonds must be denominated in New Zealand Dollars.
- Bonds must be issued directly by the Government of New Zealand.
- Sovereign-owned enterprise debt, regional government, local authority, and supranational issues are strictly excluded.

- Nominal, fixed-rate coupon bonds are eligible.
- Treasury Bills, inflation-indexed bonds, floating-rate notes, and retail savings bonds are ineligible for inclusion.
- Bonds must have a minimum outstanding amount of 2 billion NZD.
- Bonds must have at least one year remaining to maturity.
- Bonds are eligible once they are actively priced.
- Bonds must settle before the index rebalance date, which is the last business day of the month.

Bond Pricing

The index is calculated each trading day using bid pricing.

Constituent Weightings

Constituents are market-cap weighted.

Index Maintenance

Rebalancing and Reconstitution

Corporate Actions

Please refer to the Fixed Income Index Maintenance Policy document for information on Corporate Action processing.

Index Information
