Introduction

Index Objective

The VettaFi Bank Capital Indices aim to capture the liquid universe of European bank fixed rate debt and capital securities denominated in Euros, Sterling, and US Dollars.

Highlights

European bank capital securities offer investors the opportunity to gain exposure to high quality credits and potentially wider spreads in compensation for the relative subordination of the bonds within a bank's capital structure.

The bond selection process consists of rule-based inclusion criteria, ensuring that only liquid bonds are included. Bonds that do not have reliable, consistent vendor pricing are excluded from the index.

VettaFi acquired the Credit Suisse Fixed Income indices in February 2025 and possesses complete live data since inception. Bond pricing and analytics are sourced from ICE Data Services (Intercontinental Exchange), Swiss bond pricing is provided by SIX Swiss Exchange, and Canadian bond pricing from Confluence.

Rebalancing

Index composition is determined using data as of the close of business three business days prior to month end (T-3). The rebalanced portfolio becomes effective at the close of the last business day of the month. For example, if month-end falls on the 31st, the data snapshot is captured at the close on the 28th, assuming all are business days. This composition remains unchanged throughout the month.

Supporting Documents

This methodology is meant to be read in conjunction with supporting documents providing greater detail with respect to the policies, procedures and calculations described herein.

The list of the main supplemental documents for this methodology can be found in the Methodologies and Governance tabs on the [Index Resources](#) page as follows:

Index Governance
Index Policies
Methodology Policies
Index Change and Consultation Policy

Index Construction

Universe

Fixed Rate European bank debt and capital securities denominated in Euros, Sterling, and U.S. Dollars for the respective indices.

Constituent Selection

The new index composition consists of the previous month's constituents and any additions or drops triggered by the inclusion criteria and liquidity assessments.

Bonds are selected using the following criteria:

- Bond must be issued by an institution categorized as a bank within VettaFi's sector tree.
- Minimum outstanding public balance of a bond issue is €250 million for BCI EUR, \$250 million for BCI USD, and £200 million for BCI GBP.
- There is no minimum rating requirement.
- Bonds must have at least two years to maturity at time of issuance.
- Bonds must have at least one year remaining to maturity. Callable bonds which are trading to maturity and have less than one year to their next call date are included.
- Bonds must settle before the index rebalance date.
- Where a bond is issued under both Reg S and 144A regulations, the Reg S version will be included.
- Zero coupon, retail, convertibles, FRN, CLN, private placement, bonds with structured coupons, and secured bonds (i.e. bonds secured by mortgages, such as Pfandbriefe issues) are ineligible.
- A bond's aggregate balance is used to determine its market cap, weight in the index, and eligibility for inclusion.

Bond Pricing

The Indexes are calculated each trading day using bid pricing.

Constituent Weightings

Constituents are market-cap weighted.

Index Maintenance

Corporate Actions

Please refer to the Fixed Index Maintenance Policy document for information on Corporate Action processing.

Index Information

Index history availability, base dates and base values are shown in the table below.

Index	Base Date	Base Currency	Base Value	Price Index	Total Return Index
VettaFi Bank Capital Dollar Index	12/31/2004	USD	100	BCUITOPR	BCUITOTR
VettaFi Bank Capital Euro Index	12/29/2000	EUR	100	CBEITOPR	CBEITOTR
VettaFi Bank Capital Sterling Index	12/29/2000	GBP	100	CBCGTOPR	CBCGTOTR

Methodology Updates and Changes

Date	Version	Previous	New
Jun 2025	1.0.0	BCID, BCIE, and BCIG were previously calculated by Credit Suisse. The previous methodology is the Credit Suisse March 2022 Credit Suisse Bank Capital Indices methodology.	Initial Version of rebranded indices with VettaFi as the new owner and administrator.
Dec 2025	1.1.0	Rebalance/Reconstitution Dates: Indexes are rebalanced/reconstituted monthly on the last business date of the month.	Modification of the reconstitution date. Indexes are now reconstituted three business days prior to the month end while rebalancing is kept on the last business day.

Index Calculation

Please refer to the Fixed Income Index Maintenance Policy document for information on index calculations.

Index Governance

The index is governed and managed by a VettaFi Index Committee for the purpose of meeting the goals of the index. For more information, please refer to the Index Governance document.

Index Policies

Please refer to the Index Policies document for information regarding Announcements, Holiday Schedules, Unexpected Exchange Closures, and Recalculation Policy.
